Most of us never get training in human relationships. It is in the situations that matter most to us that we are likely to have trouble. Sometimes we just don't know the best way to approach dilemmas created by the challenges that can strain our relationships. It is during these very complex moments that we need to realize that hidden in the hard times are moments of insight that give meaning to what we do. In this session, Dr. Hartwig will emphasize positive and principled personal skills that will help you focus on common interests, not positions. He will help you think differently about establishing and maintaining harmonious relationships with a sense of self-reflection, introspection and humor.
