

WHAT IS MTSS? MULTI-TIERED SYSTEM OF SUPPORTS

What is MTSS?

A multi-tiered system of supports (MTSS) is a proactive and preventative framework that integrates data and instruction to maximize student achievement and support students' social, emotional, and behavior needs from a strengths-based perspective. MTSS offers a framework for educators to engage in data-based decision making related to program improvement, high-quality instruction and intervention, social and emotional learning, and positive behavioral supports necessary to ensure positive outcomes for districts, schools, teachers, and students.

As defined by the MTSS Center at the American Institutes for Research (AIR)

What is OKMTSS?

Oklahoma Multi-Tiered System of Supports (OKMTSS) is a state-defined framework incorporating the tenets of MTSS into a comprehensive tool for local educational agencies (LEAs) to utilize, ultimately supporting their implementation of an effective and cohesive MTSS system. The OKMTSS framework was developed with the support of the Oklahoma State Department of Education, State Personnel Development Grant (SPDG), Project AWARE, Project RESPECT, State Systemic Improvement Plan (SSIP), Office of Special Education Services, Office of School Support, Office of Student Development, National Technical Centers and University Partners. The finalized introductory guide is a culmination of the efforts of each of these offices.
